MUHAMMED IRFAN

React + Front-end developer

🔗 lrffann.in   ⬤ irffann-git   ✉ rxmeirfan7@gmail.com   📞 +91 9562390365

SUMMARY

Front-End Developer skilled in **React.js**, **JavaScript**, **HTML**, **CSS**, **Bootstrap**, and **Tailwind CSS**. Experienced in building responsive and scalable web applications using **React hooks, state management, props, and routing**. Completed projects and an internship applying best practices in UI development, performance optimization, and version control with Git. Open to full-time opportunities to contribute to modern front-end development projects.

INTERNSHIP

May - 2025   present   Techolas Technologies

- Developed responsive web apps using **React.js, JavaScript, React-Bootstrap, CSS**.

- Built reusable components and managed application state.

- Implemented routing with **React Router**.

- Wrote clean, maintainable code following best practices.

PROJECT

2024   TrendRove – AI-Powered E-Commerce Fashion App

Developed an AI-driven e-commerce clothing application with Admin, Shop, and User modules, inspired by platforms like Meesho, Ajio, and Flipkart Fashion. The app integrates a CNN and K-Means–based skin tone recognition system to recommend outfits tailored to users' complexion. Built using Java, Flutter, SQL, and XAMPP, TrendRove features secure data management, seamless user experience, and scalable architecture. Proposed future enhancement includes real-time face-cam skin tone recognition for personalized fashion suggestions.

EDUCATION

2022–2025   Bachelor of Computer Applications, LBS Model Degree College, Parappanangadi
2021-2022   Diploma in Computer Application , IHRD Tirur
2019-2021   Class 12th at Board of Higher Secondary Education, BEMHSS, Parappanangadi
